INTRODUCTION TO COMPUTING

Our final project is a website designed to provide information in a simple and organized way. It includes different sections such as the Home and About pages, allowing users to easily navigate through the website and explore its content. The project focuses on creating a clean layout, easy navigation, and a design that makes the website simple and convenient to use.
COMP 101: INTRODUCTION TO COMPUTING

Our final project is a **website designed with a modern and interactive interface**. Its unique functionality is the way it organizes different sections such as **Home, About, and other pages** into one accessible platform. The website focuses on making information easy to find while providing a **clean, technology-inspired design and user-friendly navigation**.

THANK YOU FOR LISTENING

Our project allowed us to apply what we learned about **web design, development, and user experience**. Through this project, we were able to create a website that is both **functional, organized, and visually engaging**. **Thank you for your time and attention!**
